## FEATURES:

- Greaseproof ● Easy to cut in desired shapes
- Easy to clean and maintain
- Recyclable and Environment friendly
- Light Weight ● Printable

# Packaging:

Packaging affects the cost of every logistical activity, and has a significant impact on the productivity of logistical systems. Transport and storage costs are directly related to the size and density of packages. Handling cost depends on unit loading techniques. Inventory control depends on the accuracy of manual or automatic identification systems. Customer service depends on the protection afforded to products as well as the cost to unpack and discard packaging materials.

**The Best packaging**  
**The Best Heat**  
**Insulation Material Quality**  
**First Customer Focus**

## PACKAGING

# CARGO PROTECTION

A lot of transportation companies use our pp corrugated sheets to protect goods that are placed on pallets. Contact us if you need advice on how to protect your material and prevent them from being damaged.

## STORAGE

# STORAGE BOXES

Corram storage boxes are used in warehouses, distribution centers, workshops, and other places that need items to be stored in an efficient and hygienic way. The boxes are easy to clean and very robust.

## STORAGE

# RECYCLE BINS

Corram recycle bins are used for exhibitions and events, as well as in hospitals and schools. They are easy to fold, lightweight, hygienic, and low cost. The recycle bins are fully customizable.

## PACKAGING

### LAYER PADS

Logistics companies use our pallet partitioning in order to divide their products, keep them from being damaged, and to stack their product in a more stable manner. Let us know what pallet size or logo you require, and we'll be happy to make a sample.

## PACKAGING

### PRODUCT DIVIDERS

Product Dividers are used to keep product in place or to prevent them from getting damaged. They are also an efficient way to place more goods in a box. Let us know which products you would like to partition, and we can make a 3D example for you.

## STORAGE

### WAREHOUSE STORAGE

The advantage of using plastic corrugated sheets to produce warehouse boxes is that it ensures the boxes are waterproof and not affected by grease, oil, other contaminants within a warehouse environment. It is for this reason that many car manufacturers and repair shops use corram boxes to keep their warehouses organized.
